## SUMMARY

Third-year B.Tech Computer Science student with hands-on experience in full-stack web development and backend API design. Developed an NLP-based Resume Analyzer for PDF skill extraction and eligibility scoring using Flask and JavaScript. Currently contributing to a group-based AI Powered Employee Management System project focused on backend logic and database integration. Strong foundation in Data Structures, Object-Oriented Programming, and SQL, with a keen interest in building scalable and efficient software systems.

## PROJECTS

### AI Resume Analyzer | *Flask, JavaScript, NLP*

<https://github.com/kavyayaa/resume-analyzer>

- Developed a full-stack web application to extract skills from PDF resumes using Python and basic NLP techniques.
- Implemented rule-based skill matching and calculated job-role eligibility percentage.
- Built REST APIs using Flask and integrated backend with a responsive frontend (HTML, CSS, JavaScript).
- Designed PDF parsing and text preprocessing pipeline for skill normalization and accurate extraction.

### E-Commerce Store | *Node.js, Express.js, MongoDB, JavaScript, Stripe*

<https://github.com/kavyayaa/e-commerce-store>

- Developed a full-stack e-commerce web application where users can browse products, add items to cart, and complete secure payments.
- Built REST APIs using Node.js and Express.js for product management, cart operations, and order handling.
- Integrated Stripe payment gateway for secure checkout and online transaction processing.
- Implemented dynamic product rendering and cart functionality using JavaScript with backend integration.

### Dictionary Web App | *HTML, CSS, JavaScript*

<https://kavyayaa.github.io/Mini-Dictionary-App/>

- Developed an interactive dictionary application with real-time word search functionality.
- Integrated API to fetch word meanings, synonyms, and phonetic details.
- Added audio pronunciation feature to enhance user experience.
- Deployed the application using GitHub Pages for public access.

## EDUCATION

**B.Tech in Computer Science** 2023 – 2027

Banasthali Vidyapith GPA: 7.56/10

**Class XII (CISCE Board)** 2023

90 Percentile

**Class X (CISCE Board)** 2021

96 Percentile

## TECHNICAL SKILLS

- **Programming Languages:** C++, C, Python, JavaScript, Java (Basic)
- **Web Technologies:** HTML, CSS, JavaScript, Flask (Basic)
- **Backend Development:** Basic Node.js / Express, REST API Exposure (via MERN project)
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming
- **Database:** MongoDB, SQL (Basic Queries, Data Handling)
- **Text Processing:** Basic NLP, PDF Parsing, Text Preprocessing
